

For our client, an international company from the retail-tech sector with a unique service, we are looking for a candidate for the position of **Project Manager** who will take the initiative in managing projects related to the development of the **Odoo** ERP platform (modules, automations, interfaces).

Your role will be to ensure the consistency of implemented operational and digital tools across teams in an international environment.

## Project Manager (Odoo)

Nr ref.: 244/10/2025/PD/265168/jobs.pl Warszawa (mazowieckie)

### What we offer

- Stable, long-term employment based on an employment contract (3-month probationary period).
- Salary: 15,000 – 25,000 PLN gross.
- Work model: remote.
- Private medical care.
- Training and professional development budget.
- Long-term growth opportunities within a global network.
- Work for a renowned company with an established market position.
- Dynamic and engaging work atmosphere.

### Your tasks

- Lead the deployment of new Odoo modules and workflows.
- Act as a Product Owner for Odoo development: collect needs, write specifications, test, validate, and coordinate releases.
- Ensure proper configuration, documentation, and training for end-users.
- Liaise with Odoo integrators and/or internal developers when needed.
- Act as a link between local teams in Poland and teams in other countries.
- Coordinate business needs from Retail, IT, Logistics, and HR departments and translate them into scalable Odoo solutions.
- Optimize current workflows, monitor system adoption, data consistency, and suggest improvements.
- Support for newly opened units, production processes, order flows and HR tools with Odoo.

### What we expect

- Education in Business, IT, Engineering, or a related field.
- 5 years of experience with **Odoo** (functional or technical roles).
- Strong background in **Python** development (previous Odoo development experience preferred).
- Knowledge of key Odoo modules (Inventory, Sales, Purchasing, Manufacturing, HR, etc.).
- Experience in implementing or managing ERP systems.
- Experience in project management, including UAT (User Acceptance Testing), deployments, and documentation.
- Familiar with Git, Linux command line, and relational databases (PostgreSQL preferred).

- English language: fluent (daily working language).
- Polish language: desirable (for coordination of local teams in Poland).
- French language: knowledge is a plus.
