

Are you looking for an environment where your expertise in financial processes and **ERP** systems will tangibly improve business operations? Join us and have a real impact on the development and optimization of our core solutions.

# Dynamics 365 Business Central Consultant

Nr ref.: 323/9/2026/GP/270574/jobs.pl Warszawa (mazowieckie)

## What you can expect from us?

- A dedicated development budget for internal and external training.
- Access to industry e-learning platforms.
- Mentoring programs and regular internal technical knowledge sharing.
- Dedicated time to develop and test your own ideas.
- **Stability & Work Model:** Employment based on an employment contract (umowa o pracę) with a flexible hybrid work model (3 days from home, 2 days from the office).
- **Culture & Communication:** An open work environment where proactivity and initiative are genuinely appreciated by both the team and management.
- **Health & Activity:** Private medical care and a sports package. For active lifestyle enthusiasts, we offer bike facilities with showers and corporate sports teams (runners, cyclists, footballers).
- **Language Support:** Subsidized English language courses.

## What will your tasks involve?

- **Analysis & Workshops:** Gathering requirements from business users regarding accounting, reporting, and settlement processes, and translating them into system solutions.
- **System Configuration:** Parameterizing financial modules in Microsoft Dynamics 365 Business Central according to business needs.
- **Modeling & Design:** Creating BPMN and UML diagrams, defining calculation logic, algorithms, and non-functional requirements for financial modules.
- **Documentation:** Creating comprehensive project documentation, including functional specifications, process descriptions, and test scenarios.
- **Testing & Quality Assurance:** Designing and executing functional tests, verifying software delivered by vendors, and supporting business users during UAT.
- **Coordination & Optimization:** Collaborating with development teams and vendors to ensure solution quality, proactively identifying process bottlenecks, and recommending ERP improvements.

## What we expect from you?

- Minimum of 3 years of experience as a Microsoft Dynamics 365 Business Central / NAV Consultant or System Analyst for other ERP systems (e.g., SAP, Oracle).
- Proven participation in ERP implementation projects or experience working within an ERP maintenance and development team.
- Practical experience in analyzing financial and accounting processes (e.g., general

ledger, accounts payable/receivable, reporting).

- Proficiency in requirements engineering techniques and BPMN/UML notations.
- Fluent communication in English (min. B2 level).
- Excellent time management and communication skills, with the ability to work independently while fostering a collaborative, creative team spirit.
- Openness to occasional business travel.

**You Will Earn Extra Points If You Have (Nice to Have)**

- Microsoft certifications validating Business Central expertise.
- An understanding of accounting principles and financial reporting.
- IREB or similar certifications in business/system analysis.
- Working knowledge of SQL and/or PL/SQL.
